

CodeHarbor Technologies

Job Description | Cloud Engineering Intern

PlacementHub 2027 Campus Recruitment - Demo Document

Role Snapshot

Role	Cloud Engineering Intern
Employment type	6-month internship with PPO consideration
Domain	Cloud Engineering
Recruitment mode	Online
Role base	Hyderabad
Expected hires	3
Stipend	INR 45,000 per month
Application deadline	18 January 2027
Joining	June 2027 internship
PPO decisions	December 2027
Service bond	No service bond

Role Purpose

Support developer-tooling features, deployment automation, and cloud observability experiments during a six-month internship with PPO consideration. Interns work with engineering mentors and contribute to practical tooling rather than isolated classroom exercises.

Key Responsibilities

- Contribute small, reviewable features to developer-tooling and deployment workflows.
- Write and debug JavaScript/Node.js code with clear Git history and documentation.
- Assist with automation around builds, deployments, service configuration, and operational checks.
- Investigate application or deployment issues using logs and structured troubleshooting steps.
- Work with engineers to improve internal developer experience and reduce repetitive manual tasks.
- Document setup steps, assumptions, known limitations, and handover notes for future contributors.
- Participate in engineering reviews and communicate progress or blockers clearly.

Skills

Required	JavaScript; Node.js; Git; Problem Solving
Preferred	TypeScript; Docker; Linux; React

Eligibility

Minimum CGPA	7.2 / 10
Eligible branches	Computer Science and Engineering; Information Technology; Electronics and Communication Engineering
Active backlogs	Maximum 0
Graduation year	2027
Additional requirement	Share a GitHub link or clearly describe a software project

Selection Process

Round	Stage	Format	What is assessed
1	Coding Test	Online assessment	Problem solving and practical JavaScript.
2	Engineering Interview	Technical interview	Projects, debugging, and cloud fundamentals.
3	Managerial Conversation	Managerial / HR discussion	Learning goals, collaboration, and internship expectations.

PPO Consideration

PPO consideration is part of the internship pathway, but is not automatic. Decisions are expected in December 2027 and would depend on internship performance, engineering quality, learning progress, collaboration, business need, and successful completion of the company review process.
