

Nexora Digital Labs

Recruitment Process & Candidate Instructions | Backend Engineer

PlacementHub 2027 Campus Recruitment - Demo Document

Drive Summary

Company	Nexora Digital Labs
Role	Backend Engineer
Application deadline	25 January 2027
Expected hires	4
Work location	Bengaluru
Work mode	Hybrid
CTC	INR 10.5 LPA
Joining	July 2027

Recruitment Stages

Round	Stage	Format	What is assessed
1	Online Assessment	Online	Programming, SQL, and debugging. Access details are published through PlacementHub.
2	Technical Interview I	Interview	Core programming, project depth, APIs, and engineering fundamentals.
3	Technical Interview II	Interview	Problem solving, design judgement, failure scenarios, and production thinking.
4	People Conversation	Conversation	Communication, role expectations, joining readiness, and team fit.

Before the Assessment

- Confirm that your PlacementHub profile, resume, phone number, email, and project links are current.
- Keep a valid college photo ID or government-issued photo ID available for identity verification.
- Use a stable internet connection and a laptop/desktop suitable for coding and SQL questions.
- Read all instructions shown on the assessment page before starting.
- Do not share assessment questions, links, credentials, or screenshots with other candidates.

Technical Interview Preparation

- Prepare one backend or systems project end-to-end: problem, architecture, implementation, debugging, testing, and limitations.
- Review Java fundamentals, data structures, SQL joins/aggregation, API basics, HTTP behavior, Git workflow, and debugging approaches.
- Expect follow-up questions about trade-offs and edge cases rather than only textbook definitions.
- If you do not know an answer, explain your reasoning instead of guessing confidently.

Interview-day Conduct

- Join or report at the communicated time; keep notifications enabled for PlacementHub updates.
- Use the same identity and contact information as your verified student profile.
- For online interviews, test microphone, camera, and screen-sharing permissions in advance.
- For any scheduling conflict or access issue, contact the placement team and recruiter promptly.

Result Communication & Candidate Status

Round outcomes and progression status will be communicated through the PlacementHub recruitment pipeline. A candidate should treat only the status shown by the official placement team/company workflow as final. Shortlisting in one round does not constitute an employment offer.

Important Policy Notes

- Eligibility: minimum 7.5 CGPA, eligible branches only, 2027 graduation year, and zero active backlogs.
- No service bond is attached to this role.
- Any material mismatch between submitted profile information and verification documents may lead to review of candidature.
