EDUCATION

Qualification	Institution	Year	CGPA / %
B.Tech, BM	Apex Institute of Technology (AIT)	2023 - 2027	8.62/10
Class XII - CBSE	Model Senior Secondary School BM	2023	88.6%
Class X - CBSE	Central Public School BM	2021	91.4%

Semester SPI: S1 8.38 | S2 8.45 | S3 8.52 | S4 8.59 | S5 8.66 | S6 8.73

PROFILE

Biomedical Engineering student targeting biomedical data associate roles, with a 8.62 CPI and applied work in wearable sensor analytics. Comfortable with Biomedical Instrumentation, MATLAB, Python, Signal Processing, structured documentation, review, and problem solving; interested in clinical signal analysis.

TECHNICAL SKILLS

- **Core:** Biomedical Instrumentation, MATLAB, Python
- **Tools / Applied:** Signal Processing, IoT, Problem Solving
- **Career focus:** Clinical signal analysis | Biomedical Data Associate | Industry-ready problem solving

WORK EXPERIENCE / RESEARCH

Institute Applied Research Lab Jan 2026 - Apr 2026

Student Research Assistant

- Contributed to wearable sensor analytics experiments, documentation, and review-ready deliverables.
- Applied Biomedical Instrumentation, MATLAB, Python to structure technical inputs, validate workflow behavior, and document findings.
- Participated in structured reviews, incorporated feedback, and maintained clear handover notes.

PROJECTS

Wearable sensor analytics Workspace github.com/placementhub-demo-2027/aarav.mehta-bm-workspace

Tech: Biomedical Instrumentation, MATLAB, Python

- Designed a Biomedical Engineering project focused on wearable sensor analytics, with documented requirements, validation results, and a usable reporting workflow.
- Applied Biomedical Instrumentation, MATLAB, Python and organized the work for repeatable review, debugging, and handover.
- Captured assumptions, edge cases, and next-step recommendations so another student could reproduce and extend the work.

BM Practice Toolkit github.com/placementhub-demo-2027/aarav.mehta-bm-toolkit

Tech: Python, Signal Processing, IoT

- Built a compact applied toolkit for clinical signal analysis to improve repeatable data capture, technical review, and communication.
- Used Python, Signal Processing, IoT and documented key usage decisions for future extension.

ACHIEVEMENTS & CERTIFICATIONS

- Department technical showcase finalist - BM Academic Forum (2026), based on work related to wearable sensor analytics.
- Applied Data Analysis - Coursera (2026).
- Maintains project repositories and professional links to support technical review during campus recruitment.

POSITIONS OF RESPONSIBILITY & ENGAGEMENT

Workshop coordinator - Biomedical Society

- Coordinated a small student activity with clear task ownership, communication, and handover notes.
- Supported peer participation and organized activity deliverables for smooth execution.
