EDUCATION

Qualification	Institution	Year	CGPA / %
B.Tech, CH	Apex Institute of Technology (AIT)	2023 - 2027	7.75/10
Class XII - CBSE	Central Public School CH	2023	83.1%
Class X - CBSE	Kendriya Vidyalaya CH	2021	85.3%

Semester SPI: S1 7.51 | S2 7.58 | S3 7.65 | S4 7.72 | S5 7.79 | S6 7.86

PROFILE

Chemical Engineering student targeting process engineer roles, with a 7.75 CPI and applied work in heat-exchanger monitoring. Comfortable with Aspen HYSYS, Process Simulation, Python, Mass Transfer, structured documentation, review, and technical documentation; interested in process optimisation.

TECHNICAL SKILLS

- **Core:** Aspen HYSYS, Process Simulation, Python
- **Tools / Applied:** Mass Transfer, Excel, Technical Documentation
- **Career focus:** Process optimisation | Process Engineer | Industry-ready problem solving

WORK EXPERIENCE / RESEARCH

Institute Applied Research Lab Jan 2026 - Apr 2026
Student Research Assistant

- Contributed to heat-exchanger monitoring experiments, documentation, and review-ready deliverables.
- Applied Aspen HYSYS, Process Simulation, Python to structure technical inputs, validate workflow behavior, and document findings.
- Participated in structured reviews, incorporated feedback, and maintained clear handover notes.

PROJECTS

Heat-exchanger monitoring Workspace github.com/placementhub-demo-2027/nandini.bose-ch-workspace

Tech: Aspen HYSYS, Process Simulation, Python

- Designed a Chemical Engineering project focused on heat-exchanger monitoring, with documented requirements, validation results, and a usable reporting workflow.
- Applied Aspen HYSYS, Process Simulation, Python and organized the work for repeatable review, debugging, and handover.
- Captured assumptions, edge cases, and next-step recommendations so another student could reproduce and extend the work.

CH Practice Toolkit github.com/placementhub-demo-2027/nandini.bose-ch-toolkit

Tech: Python, Mass Transfer, Excel

- Built a compact applied toolkit for process optimisation to improve repeatable data capture, technical review, and communication.
- Used Python, Mass Transfer, Excel and documented key usage decisions for future extension.

ACHIEVEMENTS & CERTIFICATIONS

- Applied project showcase participant - CH Academic Forum (2026), based on work related to heat-exchanger monitoring.
- Professional Communication - NPTEL (2026).
- Maintains project repositories and professional links to support technical review during campus recruitment.

POSITIONS OF RESPONSIBILITY & ENGAGEMENT

Member - Energy Club

- Coordinated a small student activity with clear task ownership, communication, and handover notes.
- Supported peer participation and organized activity deliverables for smooth execution.
