EDUCATION

Qualification	Institution	Year	CGPA / %
B.Tech, ECE	Apex Institute of Technology (AIT)	2023 - 2027	8.43/10
Class XII - CBSE	Model Senior Secondary School ECE	2023	88.8%
Class X - CBSE	Central Public School ECE	2021	90.4%

Semester SPI: S1 8.19 | S2 8.26 | S3 8.33 | S4 8.40 | S5 8.47 | S6 8.54

PROFILE

Electronics and Communication Engineering student targeting embedded systems engineer roles, with a 8.43 CPI and applied work in iot edge telemetry. Comfortable with Embedded C, IoT, MATLAB, Python, structured documentation, review, and problem solving; interested in connected device development.

TECHNICAL SKILLS

- **Core:** Embedded C, IoT, MATLAB
- **Tools / Applied:** Python, PCB Design, Problem Solving
- **Career focus:** Connected device development | Embedded Systems Engineer | Industry-ready problem solving

WORK EXPERIENCE / RESEARCH

Vertex Engineering Solutions May 2026 - Jul 2026

Embedded Systems Engineer Intern

- Contributed to iot edge telemetry experiments, documentation, and review-ready deliverables.
- Applied Embedded C, IoT, MATLAB to structure technical inputs, validate workflow behavior, and document findings.
- Participated in structured reviews, incorporated feedback, and maintained clear handover notes.

PROJECTS

IoT edge telemetry Workspace github.com/placementhub-demo-2027/nikhil.yadav-ece-workspace

Tech: Embedded C, IoT, MATLAB

- Designed a Electronics and Communication Engineering project focused on iot edge telemetry, with documented requirements, validation results, and a usable reporting workflow.
- Applied Embedded C, IoT, MATLAB and organized the work for repeatable review, debugging, and handover.
- Captured assumptions, edge cases, and next-step recommendations so another student could reproduce and extend the work.

ECE Practice Toolkit github.com/placementhub-demo-2027/nikhil.yadav-ece-toolkit

Tech: MATLAB, Python, PCB Design

- Built a compact applied toolkit for connected device development to improve repeatable data capture, technical review, and communication.
- Used MATLAB, Python, PCB Design and documented key usage decisions for future extension.

ACHIEVEMENTS & CERTIFICATIONS

- Department technical showcase finalist - ECE Academic Forum (2026), based on work related to iot edge telemetry.
- Applied Data Analysis - Coursera (2026).
- Maintains project repositories and professional links to support technical review during campus recruitment.

POSITIONS OF RESPONSIBILITY & ENGAGEMENT

Workshop lead - IEEE Student Branch

- Coordinated a small student activity with clear task ownership, communication, and handover notes.
- Supported peer participation and organized activity deliverables for smooth execution.
