EDUCATION

Qualification	Institution	Year	CGPA / %
B.Tech, ECE	Apex Institute of Technology (AIT)	2023 - 2027	7.76/10
Class XII - CBSE	Kendriya Vidyalaya ECE	2023	83.4%
Class X - CBSE	Model Senior Secondary School ECE	2021	85.2%

Semester SPI: S1 7.52 | S2 7.59 | S3 7.66 | S4 7.73 | S5 7.80 | S6 7.87

PROFILE

Electronics and Communication Engineering student targeting embedded systems engineer roles, with a 7.76 CPI and applied work in low-power sensor network. Comfortable with Embedded C, IoT, MATLAB, Python, structured documentation, review, and technical documentation; interested in connected device development.

TECHNICAL SKILLS

- **Core:** Embedded C, IoT, MATLAB
- **Tools / Applied:** Python, PCB Design, Technical Documentation
- **Career focus:** Connected device development | Embedded Systems Engineer | Industry-ready problem solving

WORK EXPERIENCE / RESEARCH

Institute Applied Research Lab Jan 2026 - Apr 2026

Student Research Assistant

- Contributed to low-power sensor network experiments, documentation, and review-ready deliverables.
- Applied Embedded C, IoT, MATLAB to structure technical inputs, validate workflow behavior, and document findings.
- Participated in structured reviews, incorporated feedback, and maintained clear handover notes.

PROJECTS

Low-power sensor network Workspace github.com/placementhub-demo-2027/ira.choudhary-ece-workspace

Tech: Embedded C, IoT, MATLAB

- Designed a Electronics and Communication Engineering project focused on low-power sensor network, with documented requirements, validation results, and a usable reporting workflow.
- Applied Embedded C, IoT, MATLAB and organized the work for repeatable review, debugging, and handover.
- Captured assumptions, edge cases, and next-step recommendations so another student could reproduce and extend the work.

ECE Practice Toolkit github.com/placementhub-demo-2027/ira.choudhary-ece-toolkit

Tech: MATLAB, Python, PCB Design

- Built a compact applied toolkit for connected device development to improve repeatable data capture, technical review, and communication.
- Used MATLAB, Python, PCB Design and documented key usage decisions for future extension.

ACHIEVEMENTS & CERTIFICATIONS

- Applied project showcase participant - ECE Academic Forum (2026), based on work related to low-power sensor network.
- Professional Communication - NPTEL (2026).
- Maintains project repositories and professional links to support technical review during campus recruitment.

POSITIONS OF RESPONSIBILITY & ENGAGEMENT

Member - Electronics Society

- Coordinated a small student activity with clear task ownership, communication, and handover notes.
- Supported peer participation and organized activity deliverables for smooth execution.
