EDUCATION

Qualification	Institution	Year	CGPA / %
B.Tech, EE	Apex Institute of Technology (AIT)	2023 - 2027	8.39/10
Class XII - CBSE	Kendriya Vidyalaya EE	2023	87.9%
Class X - CBSE	Model Senior Secondary School EE	2021	89.8%

Semester SPI: S1 8.15 | S2 8.22 | S3 8.29 | S4 8.36 | S5 8.43 | S6 8.50

PROFILE

Electrical Engineering student targeting power systems engineer roles, with a 8.39 CPI and applied work in smart load forecasting. Comfortable with Power Systems, MATLAB, Python, PLC, structured documentation, review, and problem solving; interested in energy monitoring.

TECHNICAL SKILLS

- **Core:** Power Systems, MATLAB, Python
- **Tools / Applied:** PLC, AutoCAD Electrical, Problem Solving
- **Career focus:** Energy monitoring | Power Systems Engineer | Data-informed decision making

WORK EXPERIENCE / RESEARCH

Vertex Engineering Solutions May 2026 - Jul 2026

Power Systems Engineer Intern

- Contributed to smart load forecasting experiments, documentation, and review-ready deliverables.
- Applied Power Systems, MATLAB, Python to structure technical inputs, validate workflow behavior, and document findings.
- Participated in structured reviews, incorporated feedback, and maintained clear handover notes.

PROJECTS

Smart load forecasting Workspace github.com/placementhub-demo-2027/neh.srivastava-ee-workspace

Tech: Power Systems, MATLAB, Python

- Designed a Electrical Engineering project focused on smart load forecasting, with documented requirements, validation results, and a usable reporting workflow.
- Applied Power Systems, MATLAB, Python and organized the work for repeatable review, debugging, and handover.
- Captured assumptions, edge cases, and next-step recommendations so another student could reproduce and extend the work.

EE Practice Toolkit github.com/placementhub-demo-2027/neh.srivastava-ee-toolkit

Tech: Python, PLC, AutoCAD Electrical

- Built a compact applied toolkit for energy monitoring to improve repeatable data capture, technical review, and communication.
- Used Python, PLC, AutoCAD Electrical and documented key usage decisions for future extension.

ACHIEVEMENTS & CERTIFICATIONS

- Department technical showcase finalist - EE Academic Forum (2026), based on work related to smart load forecasting.
- Applied Data Analysis - Coursera (2026).
- Maintains project repositories and professional links to support technical review during campus recruitment.

POSITIONS OF RESPONSIBILITY & ENGAGEMENT

Industry outreach lead - Electrical Society

- Coordinated a small student activity with clear task ownership, communication, and handover notes.
- Supported peer participation and organized activity deliverables for smooth execution.
