## EDUCATION

| Qualification    | Institution                        | Year        | CGPA / % |
|------------------|------------------------------------|-------------|----------|
| B.Tech, EE       | Apex Institute of Technology (AIT) | 2023 - 2027 | 7.66/10  |
| Class XII - CBSE | Central Public School EE           | 2023        | 81.5%    |
| Class X - CBSE   | Kendriya Vidyalaya EE              | 2021        | 83.7%    |

Semester SPI: S1 7.42 | S2 7.49 | S3 7.56 | S4 7.63 | S5 7.70 | S6 7.77

## PROFILE

Electrical Engineering student targeting power systems engineer roles, with a 7.66 CPI and applied work in solar inverter monitoring. Comfortable with Power Systems, MATLAB, Python, PLC, structured documentation, review, and technical documentation; interested in energy monitoring.

## TECHNICAL SKILLS

- **Core:** Power Systems, MATLAB, Python
- **Tools / Applied:** PLC, AutoCAD Electrical, Technical Documentation
- **Career focus:** Energy monitoring | Power Systems Engineer | Industry-ready problem solving

## WORK EXPERIENCE / RESEARCH

**Institute Applied Research Lab** Jan 2026 - Apr 2026

**Student Research Assistant**

- Contributed to solar inverter monitoring experiments, documentation, and review-ready deliverables.
- Applied Power Systems, MATLAB, Python to structure technical inputs, validate workflow behavior, and document findings.
- Participated in structured reviews, incorporated feedback, and maintained clear handover notes.

## PROJECTS

**Solar inverter monitoring Workspace** [github.com/placementhub-demo-2027/arnav.bhatt-ee-workspace](https://github.com/placementhub-demo-2027/arnav.bhatt-ee-workspace)

**Tech:** Power Systems, MATLAB, Python

- Designed a Electrical Engineering project focused on solar inverter monitoring, with documented requirements, validation results, and a usable reporting workflow.
- Applied Power Systems, MATLAB, Python and organized the work for repeatable review, debugging, and handover.
- Captured assumptions, edge cases, and next-step recommendations so another student could reproduce and extend the work.

**EE Practice Toolkit** [github.com/placementhub-demo-2027/arnav.bhatt-ee-toolkit](https://github.com/placementhub-demo-2027/arnav.bhatt-ee-toolkit)

**Tech:** Python, PLC, AutoCAD Electrical

- Built a compact applied toolkit for energy monitoring to improve repeatable data capture, technical review, and communication.
- Used Python, PLC, AutoCAD Electrical and documented key usage decisions for future extension.

## ACHIEVEMENTS & CERTIFICATIONS

- Applied project showcase participant - EE Academic Forum (2026), based on work related to solar inverter monitoring.
- Professional Communication - NPTEL (2026).
- Maintains project repositories and professional links to support technical review during campus recruitment.

## POSITIONS OF RESPONSIBILITY & ENGAGEMENT

**Member - Energy Club**

- Coordinated a small student activity with clear task ownership, communication, and handover notes.
- Supported peer participation and organized activity deliverables for smooth execution.
